

SCIENCE (CHEMISTRY) - ASSOCIATE OF SCIENCE

Overview

The Associate of Science degree allows students to complete many of the general education requirements for a bachelor's degree while still at the community college. Students should take electives that apply toward the requirements of their chosen bachelor's degree. The science electives may be taken at DACC or NMSU. *Students who wish to transfer to NMSU and major in Chemistry should consider selecting the Chemistry Concentration and follow the related Roadmap, in consultation with their advisor.*
