

ELECTRICAL ENGINEERING - MASTER OF ENGINEERING IN ELECTRICAL ENGINEERING (ONLINE)

Requirements and Options for the MEEE Degree

The Program Educational Objectives for the Master of Engineering Program in Electrical Engineering are:

1. That graduates successfully apply advanced skills and techniques in one or more areas of emphasis.
2. That graduates obtain relevant, productive employment with the private sector or in government and/or pursue additional advanced degrees.

The MEEE is a coursework-only option for obtaining a master's degree. The requirement is a total of 30 credits of graduate course work, including passing with a grade of B or better six Graduate Expanded Core Courses from at least three different areas of emphasis. No oral exam is required for the MEEE. All students in the MEEE program who receive support as GAs are expected to take 9 credits of coursework toward the MEEE degree each semester, excepting in their final academic semester by filing a request for waiver permitting them to take less than 9 credits, but not less than 1 credit.

Prefix	Title	Credits
Graduate Expanded Core Courses: choose 6 from at least 3 different areas¹		18-21
<i>Electromagnetics</i>		
E E 521	Microwave Engineering	
E E 541	Antennas and Radiation	
E E 548	Introduction to Radar	
E E 549	Smart Antennas	
<i>Microelectronics/VLSI</i>		
E E 510	Introduction to Analog and Digital VLSI	
E E 512	ASIC Design	
E E 523	Analog VLSI Design ²	
E E 567	ARM SOC Design	
<i>Photonics</i>		
E E 528	Fundamentals of Photonics ²	
E E 577	Fourier Methods in Electro-Optics	
E E 578	Optical System Design	
<i>Electric Energy Systems</i>		
E E 502	Electricity Markets	
E E 503	Numerical Computational Methods for Smart Grid	
E E 504	Smart Grid Technologies	
E E 505	Application of Optimization Techniques in Power Systems	
E E 507	Data Analytics and AI for the Smart Grid	
E E 533	Power System Operation	
E E 534	Power System Relaying	
E E 537	Power Electronics	
E E 540	Photovoltaic Devices and Systems	

E E 542	Power System Analysis	
E E 543	Power System Faults and Stability ²	
E E 544	Distribution Systems	
<i>Digital Signal Processing</i>		
E E 545	Digital Signal Processing II ²	
E E 565	Machine Learning I ³	
E E 576	Geometric Algebra ³	
E E 587	Deep Learning for Image Processing	
E E 588	Advanced Image Processing	
E E 596	Digital Image Processing ^{2,3}	
E E 597	Neural Signal Processing	
<i>Computer Engineering</i>		
E E 506	Quantum Computing	
E E 556	Hardware & Software Codesign	
E E 558	Hardware Security and Trust	
E E 562	Computer Systems Architecture ²	
E E 563	Computer Performance Analysis I	
E E 590	Selected Topics (Applications of Parallel Computing XSEDE Collaborative Course)	
<i>Communications</i>		
E E 571	Random Signal Analysis ²	
E E 572	Modern Coding Theory	
E E 573	Signal Compression	
E E 581	Digital Communication Systems I	
E E 583	Wireless Communications	
E E 586	Information Theory	
<i>Controls & Robotics</i>		
E E 551	Control Systems Synthesis ²	
E E 553	Noncooperative Game Theory	
E E 565	Machine Learning I ³	
E E 576	Geometric Algebra ³	
E E 596	Digital Image Processing ³	
Graduate Electives: choose 3 to 4 courses⁴		12-9
Total Credits		30

¹ The graduate expanded core courses must be passed with a grade of B or better. Note—a grade of B- (or lower) in a graduate expanded core course will not satisfy completion of that course for the MEEE.

² This course is one of the MSEE Graduate Core Courses. Students pursuing the MEEE who wish to pursue the Ph.D. in the future are encouraged to select three courses from this subset of courses to satisfy one of the requirements for the Ph.D. Qualifying exam (see <https://ece.nmsu.edu/grad-study/phd-qualifying.html>) for more information.

³ This course is included in multiple areas of emphasis. Students may use this course to satisfy **one** area of emphasis.

⁴ E E courses must be at the 500 level or higher. Non-E E courses must be at the 450 level or higher. Credits of E E 590 Selected Topics which are not subtitled are limited to a total of 6.

Other limitations and requirements that apply to all master's degrees are described elsewhere in this catalog.

Included Prefixes

Graduate course work credits from the following prefixes are permitted for the MEEE degree. If a graduate course outside this list of prefixes logically fits into the MEEE program, see your graduate advisor about

requesting an exception; note that exceptions must be approved before taking the class.
