

FAMILY NURSE PRACTITIONER - POST-MASTERS CERTIFICATE (ONLINE)

Post Graduate APRN Certificate Program: This program is for currently certified Master's or doctorally-prepared nurse practitioners, certified nurse midwives, and certified registered nurse anesthetists who wish to obtain the coursework needed to sit for certification in another specialty. The Post-Graduate certificate consists of 24 credit hours, including a minimum of 750 clinical hours. When applying to the Post-Graduate APRN Certificate program, please select "Graduate Certificate" in the application system. Please note that the clinical hours are "required" for national certification and cannot be waived or negotiated. We will also need to copies of your syllabi for the three P's (advanced pathophysiology, advanced pharmacology and advanced physical assessment) to ensure that the courses were taught "across the lifespan".

The **Family Nurse Practitioner** track prepares nurses for advanced practice through a course of study focused on families' health care across the lifespan. The courses in this specialty focus on advanced health assessment, pathophysiology, pharmacology, and management of acute and chronic illness in families. These courses are combined with specialty seminars and clinical experiences that emphasize the physiological and psychosocial impact of illness on the patient and family. Graduates are prepared to sit for the Family Nurse Practitioner national certification exam.

For application information, visit the School of Nursing website (<https://schoolofnursing.nmsu.edu/>) or contact the Nursing Graduate Advisor for more information about application and admission requirements at (575) 646-4007.
