

SOIL SCIENCE (ENVIRONMENT AND RESOURCE MANAGEMENT) - BACHELOR OF SCIENCE IN AGRICULTURE

Soil scientists investigate the physical, chemical and biological characteristics and behavior of soils, their description and classification, and their management for both agricultural and non-agricultural uses. Career opportunities include: industry jobs; environmental consulting firms; and federal, state and local government careers working on various environmental, agricultural and ecological projects.

Soil science is integrated into the management of the environment and natural resources. Students interested in careers of conservation, environmental management, urban planning, waste disposal and related fields in government and industry may choose from a variety of course offerings. The economic and social implications as well as the technological aspects of resource management are included in the concentration courses.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework. In addition to the courses listed for each major, you must take 35 credits in the College of Agricultural, Consumer and Environmental Sciences and at least 24 credits of soil science related courses with a grade of C- or above including:

Prefix	Title	Credits
General Education		
<i>Area I: Communications</i>		
<i>English Composition - Level 1</i> ¹		4
<i>English Composition - Level 2</i>		
ENGL 2210G	Professional and Technical Communication	3
or ENGL 2210H	Professional and Technical Communication	
<i>Oral Communication</i> ¹		3
<i>Area II: Mathematics</i>		
Choose from one of the following:		3-4
MATH 1430G	Applications of Calculus I ²	
MATH 1511G	Calculus and Analytic Geometry I ²	
or MATH 1511H	Calculus and Analytic Geometry I Honors	
<i>Area III/IV: Laboratory Science and Social/Behavioral Sciences</i>		11
CHEM 1215G	General Chemistry I Lecture and Laboratory for STEM Majors	
CHEM 1225G	General Chemistry II Lecture and Laboratory for STEM Majors	
<i>Area IV: Social & Behavioral Sciences Course (3 credits)</i> ¹		
<i>Area V: Humanities</i> ¹		3
<i>Area VI: Creative and Fine Arts</i> ¹		3
<i>General Education Elective</i>		
GEOL 1110G	Physical Geology	4
or HNRS 2116G	Earth, Time and Life	
Viewing A Wider World ³		6

Departmental/College Requirements 24

SOIL 2110 & 2110L	Introduction to Soil Science and Introduction to Soil Science Laboratory	
SOIL 312 & 312 L	Soil Management and Fertility and Soil Management and Fertility Lab	
SOIL 447	Seminar	
Choose 15 credit hours of SOIL Courses (300-level or above)		
SOIL 370	Environmental Soil Science	
SOIL 424 or SOIL 479	Soil Chemistry and Environmental Soil Chemistry	
SOIL 456	Irrigation and Drainage	
SOIL 472	Soil Morphology and Classification	
SOIL 476	Soil Microbiology	
SOIL 476 L	Soil Microbiology Laboratory	
SOIL 477	Environmental Soil Physics	
SOIL 477 L	Environmental Soil Physics Laboratory	

Concentration Coursework⁴

Select at least one course from each of the following four categories to bring total concentration coursework to 30 credits

All course selections must be in addition to the courses required under the Departmental/College and Non-Departmental Requirements sections listed above

Category 1: Soil, Water, Wildlife, or Range Conservation

Course category areas are as follows:

Range Science

Soil

Environmental Science

Wildlife Science

Category 2: Ecology, Plant Biology, or Crop Production

Course category areas are as follows:

Agronomy

Biology

Entomology

Plant Pathology

Weed Science

Horticulture

Toxicology

Category 3: Earth, Mineral, or Climatic Resources & Economics

Course category areas are as follows:

Agricultural Economics

Geography

Geology

Planning

Survey

Category 4: Advanced Science, Computing & Statistics

Course category areas are as follows:

Math

Chemistry

Physics

Computer-Oriented

Statistics or Applied Statistics

Non-Departmental Requirements (in addition to Gen.Ed/VWW)

PHYS 1230G	Algebra-Based Physics I ((Lab not required))	3
CHEM 2120	Integrated Organic Chemistry and Biochemistry (CHEM 2120 must be taken with associated 1-cr CHEM lab)	3-4
or ANSC 1170	Introduction to Animal Metabolism	
Choose two from the following (lab is NOT required)		6

BIOL 2610G	Principles of Biology: Biodiversity, Ecology, and Evolution
BIOL 311	General Microbiology
BIOL 2110G	Principles of Biology: Cellular and Molecular Biology
Second Language: (not required)	
Electives, to bring the total credits to 120⁵	12-14
Total Credits	120

¹ See the General Education (<https://catalogs.nmsu.edu/nmsu/general-education-viewing-wider-world/>) section of the catalog for a full list of courses

² MATH 1430G Applications of Calculus I or MATH 1511G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites to enter either course first.

³ See the Viewing a Wider World (<https://catalogs.nmsu.edu/nmsu/general-education-viewing-wider-world/#viewingawiderworldtext>) section of the catalog for a full list of courses

⁴ Please see your academic advisor for a list of appropriate courses to satisfy the concentration coursework requirements.

⁵ Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
