| ICT 320   | Introduction to Internet Protocols   | 3         |
| ICT 350V  | Introduction to Personal Computer Security and Privacy                                   | 3         |
| ICT 450   | Ethical Hacking  | 3         |
| ICT 457   | Information Security Principles  | 3         |
| <b>Elective - Select two from the following:</b> <sup>1, 2, 3</sup> |  | <b>6</b>  |
| CSCI 4205   | Computer Security  |           |
| BCIS 480  | Introduction to Cybersecurity: Exploring Computer, Network, and Data Security Principles |           |
| ICT 467   | Communication Network Security   |           |
| ICT 487   | Data Security  |           |
| <b>Total Credits</b>  |  | <b>18</b> |

<sup>1</sup> A grade of C- or better is required in each course (may not be taken S/U).

<sup>2</sup> Listed courses may have additional prerequisites. Non-majors may contact the instructor to request a prerequisite waiver. Prerequisite waiver(s) may or may not be granted by the instructor.

<sup>3</sup> Engineering Technology students can meet most of the requirements for this minor by judicious selection of their electives. Consult with a faculty advisor.
