

INDUSTRIAL ENGINEERING

Hansuk Sohn, Department Head

Professors

Associate Professors Hansuk Sohn (Department Head), John Mullen, Raja Jayaraman

Assistant Professors Chaitanya Mahajan, Venkata Sirimuvva "Siri" Chirala

Professor of Practices Manuel Ivan Rodriguez Borbon, Salvador Rodriguez

Adjunct Professor German Reyes

Professor Emeritus Ed Pines

H. Sohn, Department Head, Ph.D. (University of Iowa)– Combinatorial optimization, Operations Research applications in logistics, transportation, and health systems; J. Mullen, Ph.D. (Iowa State)– Stochastic processes, quality, improvement, production system design; R. Jayaraman, Ph.D. (Texas Tech)- Digital supply chain, applied Operations Research, healthcare systems engineering; C. Mahajan, Ph.D. (Rochester Institute of Technology)- Additive manufacturing, computer integrated manufacturing, manufacturing systems; V. S. Chirala, Ph.D. (Wayne State)- Robot operating system, autonomous vehicles, multi-objective stochastic programming, machine learning; M. I. Rodriguez Borbon, Ph.D. (NMSU)- Experimental statistics, reliability, degradation analysis, survival analysis, lifecycle analysis; Salvador "Sal" Rodriguez, MS (NMSU)- Conceptual, Developmental and Operational Test & Evaluation, and Project Management; G. Reyes, Ph.D. (NMSU)- computer simulation modeling, including agent-based modeling, system dynamics modeling, and digital twin technology; E. Pines, Ph.D. (Penn State)– Quality and continuous improvement, technology policy;
