

SPANISH - MASTER OF ARTS

The Master of Arts in Spanish program participates in the **Master's Accelerated Program (MAP)** at NMSU.

The MAP program is the chance to take up to 12 graduate credits (courses numbered SPAN 450 level and higher) as part of your undergrad program that can, then, also apply towards a Master's degree.

In order to take advantage of this opportunity, you **must apply for the MAP program BEFORE taking ANY classes at this level.**

Please visit the Graduate School web page for more information about the steps and to APPLY (open this link: <https://gradschool.nmsu.edu/current-students/masters-accelerated-program.html>)

You will see a link at the bottom of the page that says "Apply to the MAP program." That's the best place to start.

Spanish Courses Eligible for the MAP

All the courses listed below are eligible for MAP. Students must receive a grade of B- or higher in this coursework to be counted for graduate credits. If a grade lower than a B- is earned, it will not count toward the graduate degree. Students should consult with the graduate program coordinator regularly to ensure they are on the correct pathway.
